PROFESSIONAL SUMMARY

Software Developer with 1 year of professional experience in backend development using C#, .NET, ASP.NET Core, REST APIs, MSSQL, and PostgreSQL. Skilled in building and maintaining RESTful APIs, working with Entity Framework Core and LINQ, debugging production issues, and optimizing database queries within Agile teams. Comfortable using AI-assisted development tools such as Claude Code and Cursor to speed up coding, debugging, and documentation. Also experienced in Java, Spring Boot, and JSP, and currently building hands-on experience with TypeScript and NestJS (Node.js) to extend into modern full-stack backend development.

TECHNICAL SKILLS

Languages: C#, Java, TypeScript, JavaScript, HTML, CSS
Backend Frameworks: .NET, ASP.NET Core, ASP.NET MVC, Web API, Entity Framework Core, LINQ, NestJS (Node.js) – in progress, Spring Boot, JSP
Databases: MSSQL / SQL Server, PostgreSQL, MySQL, Stored Procedures
Security & Testing: JWT Authentication, Unit Testing
DevOps & Cloud: Docker, CI/CD pipelines, Azure basics, AWS basics
Version Control: Git, GitHub
Tools: Postman, Visual Studio, Visual Studio Code, IntelliJ IDEA, Eclipse
Methodologies: Agile Development, SDLC
Soft Skills: Problem Solving, Communication, Team Collaboration, Documentation

WORK EXPERIENCE

Software Developer | Lucid, Bengaluru *Dec 2025 – Present*

- Develop and maintain backend applications using C#, .NET, and ASP.NET Core, focusing on scalable and reliable system performance.
- Design and implement RESTful APIs using Entity Framework Core and LINQ, integrating with MSSQL and PostgreSQL for efficient data management.
- Debug and resolve production issues and optimize database queries, contributing to measurable improvements in application stability and response times.
- Collaborate with cross-functional teams in an Agile environment, maintaining code quality through Git-based version control and peer review.

Web Research Analyst | KGiS, Coimbatore *Aug 2025 – Dec 2025*

- Conducted research and data analysis to support client projects, ensuring data accuracy across multiple sources.
- Prepared structured reports and maintained documentation aligned with project requirements.
- Collaborated with cross-functional teams to improve workflow efficiency and consistently meet deadlines.
- Built foundational technical proficiency in Java and web technologies alongside analytical and communication skills, which supported the transition into a backend developer role.

PROJECTS

Enterprise Application Suite (POS, User Management, Contactless Systems) | Lucid *Dec 2025 – Present*

- Built backend modules for a Point-of-Sale (POS) system, a User Management module, and a Contactless transaction system as part of a shared enterprise codebase.
- Designed REST API endpoints and data models in C# / ASP.NET Core, using Entity Framework Core for data access and MSSQL/PostgreSQL for storage.
- Applied JWT-based authentication to secure API endpoints and wrote unit tests to validate core business logic before release.
- Used Postman for API testing and Git for version control; participated in code reviews and sprint ceremonies within the team's CI/CD workflow.

EDUCATION

Bachelor's Degree in Commerce (Computer Applications) – Bharathidasan College of Arts and Science, Erode (2021 – 2024), CGPA: 7.2

Higher Secondary and Secondary Education – Komarapalayam Sengunthar Higher Secondary School (2018 – 2021)

CERTIFICATES

- Java Full Stack Development – QTree Technologies, Coimbatore (Java Core, JSP, Spring Boot, JDBC, REST APIs, MySQL, Frontend Development)
